The city of Wahpeton is in trouble  
over its electric lights and the Minne-  
sota Trust Co. has brought suit to  
collect pay for lights. Their present  
city council don't think the franchise  
is valid. The Wahpeton people have  
our sympathy.

The Northern Pacific Congrega-  
tional conference is in session at Wa-  
shington this week.

The Northern Pacific will begin  
running solid vestibuled trains from  
Chicago to the coast July 1st.

As advertisement in the Chicago  
Daily News announces that the Brain-  
erd Tribune property is for sale.

It is really too bad that Bro. Stivers  
is not a republican this year on ac-  
count of the land office patronage.

The village of Sauk Center is hav-  
ing a scarlet fever scare and a large  
number of families have been quar-  
antined.

Politics will end the usefulness of  
any organization, if it is allowed to  
take root. There is no body of men  
who can think alike.

The Duluth Herald is as crisp and  
newsy an exchange as reaches our  
table. The people of that city should  
give it a liberal patronage.

Also, Koop's resolution in regard to  
gambling and houses of ill fame was  
timely, although it startled some of  
the natives on the back seats.

The jury in the Blatz murder case  
has disagreed, and it is now likely  
that the woman who shot Doherty in  
cold blood will escape punishment.

The committee of Odd Fellows who  
visited Johnson reported the loss  
to the order of thirty-three members,  
thirty-four wives and 109 children by  
the flood.

STAPLES MILLS, a station on the  
Northern Pacific, has been opened  
for business and Dower Lake station  
closed up. This is where the Little  
Falls cut-off taps the main line.

Read the St. Cloud papers if you  
think there is no reason for complaint,  
Bro. Stivers. The estimation that  
the people at home have of an indi-  
vidual is generally what counts.

REPRESENTATIVE CONSTOCK has re-  
commended the appointment of Miss  
Clara McMillan as postmaster at  
Verndale. She is a sister of Bro. Mc-  
Millan, of the Verndale Journal.

THERE are at present 172 fire insur-  
ance companies authorized to trans-  
act business in Minnesota. Of these  
120 are foreign companies with United  
States branches, and 26 are mutual  
companies.

The municipal authorities of Min-  
neapolis have revoked a saloon-keep-  
er's license for keeping his place open  
on Sunday. The shock was so sud-  
den that several people in that city  
were paralyzed.

THERE isn't a country paper in the  
state but what has complimented  
Brainerd for not allowing the "watch  
chain fakir" full sway while here,  
and in the same breath scored their  
own authorities.

The Minneapolis firemen are work-  
ing up a tournament to take place in  
September. It is a cold day when  
that city can't work up a scheme to  
get the boys in from all over the  
state to spend their money.

The Little Falls people are making  
arrangements to give a bonus to have  
the convent and school buildings re-  
cently burned at Belle Prairie rebuilt  
in that city, and it is thought that  
they will succeed in getting them.

Work has been commenced by the  
Northern Pacific road on its connect-  
ing link of tracks uniting the termin-  
us of its leased line, the Wisconsin  
Central, and the system at Ashland.  
Within a few days a continuous line  
of railway between the west and the  
east will have been formed.

The man recently arrested at New  
Ulrich for impersonating a post-offi-  
ce inspector, and who gave his name as  
T. S. Wright, has been identified as  
William A. Bell, an ex-convict of the  
Wisconsin penitentiary. In Wis-  
consin he was caught impersonating  
an internal revenue inspector under  
the name of Thorpe.

It is now claimed on good author-  
ity that Senator Marcus Johnson, of  
Ayrault, will be appointed internal  
revenue collector for Minnesota. Sec-  
retary Windom has stepped in and  
between Senators Washburn and Davis,  
and out of chaos he has brought forth  
a compromise. Mr. Johnson being  
benefitted thereby. It is a neat little  
plan of \$5000 a year.

The city council of Brainerd has  
gone on record as being in favor of  
enforcing the laws and are endeavor-  
ing to induce the mayor to lend them  
a helping hand with his police force,  
but with what degree of success can  
be determined later on. It is cer-  
tainly a peculiar state of affairs when  
the city government has to beg of its  
executive officer to see that crime is  
suppressed.

The Journal is entirely satisfied  
with the St. Cloud land office, and  
seems surprised to think that every  
body else is not. A good, large slice  
of bread and butter is doled out to  
Bro. Stivers every month through  
this agency, and we wouldn't be sur-  
prised to see him flop over into the  
republican ranks again in order to  
keep it. Four years ago he per-  
formed the contortion act for this moral  
and there is no reason why he should  
not do it again.

It is now claimed on good author-  
ity that Senator Marcus Johnson, of  
Ayrault, will be appointed internal  
revenue collector for Minnesota. Sec-  
retary Windom has stepped in and  
between Senators Washburn and Davis,  
and out of chaos he has brought forth  
a compromise. Mr. Johnson being  
benefitted thereby. It is a neat little  
plan of \$5000 a year.

The city of Wahpeton is in trouble  
over its electric lights and the Minne-

collect pay for lights. Their present

is valid. The Wahpeton people have

tional conference is in session at Wa-  
shington this week.

The Northern Pacific will begin  
running solid vestibuled trains from  
Chicago to the coast July 1st.

As advertisement in the Chicago  
Daily News announces that the Brain-  
erd Tribune property is for sale.

It is really too bad that Bro. Stivers  
is not a republican this year on ac-  
count of the land office patronage.

The village of Sauk Center is hav-  
ing a scarlet fever scare and a large  
number of families have been quar-  
antined.

Politics will end the usefulness of  
any organization, if it is allowed to  
take root. There is no body of men  
who can think alike.

The Duluth Herald is as crisp and  
newsy an exchange as reaches our  
table. The people of that city should  
give it a liberal patronage.

Also, Koop's resolution in regard to  
gambling and houses of ill fame was  
timely, although it startled some of  
the natives on the back seats.

The jury in the Blatz murder case  
has disagreed, and it is now likely  
that the woman who shot Doherty in  
cold blood will escape punishment.

The city of Wahpeton is in trouble over its electric lights and the Minnesota Trust Co. has brought suit to collect pay for lights. Their present city council don't think the franchise is valid. The Wahpeton people have our sympathy.

The Mille Lacs Indian scare did not amount to much except through the columns of the daily papers. People at a distance imagined this part of the state was in the heart of an Indian massacre, and that white men and women were being cut down like June grass before the farmer's scythe. The fact is one poor, lone red man got drunk and shot a white man, seriously but not fatally wounding him. The whole thing is nothing more than what happens many times a year among civilized people, and the state troops are not called out either.

The appointment of S. R. Ainslie as general manager of the Wisconsin Central road is certainly one of the best selections that could have been made. Mr. Ainslie has many warm personal friends in Brainerd who are pleased to note his prosperity, but who are sorry to see him placed in a position that will attract the attention from this section. However, it is among the probabilities that with the next change he will occupy a similar position on the Northern Pacific. He is a thorough railroad man and capable to fill any position in the gift of the company.

The Mayor's Little Veto. Mayor Hemstead has taken it upon himself to veto ordinance 82, which was unanimously passed by the council at its last regular meeting, and which calls for a reduction of the police force to two patrolmen and a chief. The mayor has gone on record as asserting that his judgment is better than that of the nine aldermen combined, by his action in the matter. The ordinance will be passed over his head at the next meeting and while he will have the satisfaction of compelling them to pass the ordinance twice he will be obliged to see his force reduced. In conversation with the mayor this morning he gives his reasons for the veto that three men are not enough to control the city and keep things quiet, and that in addition to the present force East Brainerd ought to have at least one officer. In regard to the gambling he stated that there was none going on in the city to his knowledge or the knowledge of the police force, and that while the city council passed the resolutions which are published elsewhere, they did not understand what the carrying out of them would mean, and that it was because they read nice and looked nice in print. Also that while the resolutions urged him to remove the houses of ill-fame that the council did not individually and outside the council room so desire, but wanted to go on record before the people and lay the blame on him.

It may be that the council was only fooling when they passed the resolutions in regard to the houses of ill-fame, and their action at the next meeting, if nothing is done by the powers that be, will prove whether they were or not. Certain it is, however, that the city council can make it exceedingly uncomfortable for the mayor if he fails to enforce the laws which have been laid down for his guidance if they so desire.

Regarding the Suspension of Father Marcell. The telegrams from Red Lake Falls announcing that there was great excitement among the Catholics of that section over the suspension from the church of Father Marcell, are greatly exaggerated. There is no split between the Irish and French parishioners. Father Marcell has been a disobedient priest and was therefore suspended and excommunicated by Archbishop Ireland. Father Marcell has no following of 500 and the whole matter has been greatly enlarged by correspondent's who were "working a string," so the church people themselves state.

Hard Times Apparent. The Hubbard Bulletin says: Our postmaster is an economical cuss. He is living on the muzzle he licks from postage stamps.

Seared at Motley. Gov. Merriam was yesterday in receipt of a telegram from citizens of Motley, setting forth that there were forty Chippewa Indians at that village, carrying arms and threatening to massacre the whites. Secretary Elliott communicated with a reliable resident of Motley, and his reply was that there were only about a dozen Indians, and that they were quite peaceable. Mr. Elliott, however, communicated with the agent of the Chippewa reservation to have the Indians removed.—Globe.

Entitled to Apportionment. Several times recently the county superintendents of schools have inquired of the department of public instruction whether a school district would be entitled to share in the apportionment of public money, provided it should close the school during the prevalence of an epidemic, and so fail to hold a session of the length prescribed by law. In accordance with the decision of the attorney general, rendered July 9th, 1888, State Supt. Kiehl says:

"If it is recorded both in the register of the district and the annual report of the clerk to the county superintendent that the school was closed by order of the school trustees, and it is shown further that the teacher received his salary for the whole time during which the school was closed then the pupils who would have attended may be counted as having attended the full term. Every pupil then having 40 days to his credit will, of course, be entitled to his apportionment.—Tribune.

For Bro. Stivers' Benefit. The St. Cloud Journal-Press after copying the remarks of the Journal and Dispatch in the last two issues publishes the following explanation which will give the unbiased reader a correct version of the affair:

The Brainerd Journal not echoes the defense Receiver McDonald made in his own behalf. The complaints of the DISPATCH are correct and just and they are the same as have been made by every republican paper in this land district where a democratic journal is also published. The requests of settlers made through the clerks of the court, are persistently ignored and notices sent to the democratic papers regardless of the wishes of the men who have to pay the printer's bill. This arbitrary partisan rule obtained only when Receiver McDonald's way in the land office became absolute. While the officers were republican notices were sent to any republican paper requested by the settler or a clerk of the court, whether it was democratic or republican, providing that the petition of the land requiring it to be the one named the land was complied with. While it may be that a large proportion of notices now go to republican than to democratic papers, this is because there are many towns in supporting republican papers. The graveness of the charges cannot be disputed, viz: that where two papers of opposing politics are published in a town, the republican paper has been invariably discriminated against.

Receiver McDonald claims that it is the Register, not the Receiver, who designates the papers in which land office notices shall be published. Technically this is true; as a matter of fact it is not. Receiver McDonald is the recognized factum of the land office, and his will is law. He has been in office less than a month when he issued the following order through the Times of August 19, 1888:

"The administration has changed and \* \* \* democratic editors have a right to demand that this (land office) printing, which for twenty years has been added to supporting republican papers, shall now be given to democratic journals, whether the local officers be republican or not. If this is not done, we advise them to get together and send their protest to Washington, accompanied by charges against the incumbents who do not acknowledge the right."

What does this mean except that democratic publishers shall demand this printing as a party right, because the "administration has changed" and regardless of "whether the local officers be republican or not?" Now that the administration has again changed, ought not the democratic publishers to demand that the republican papers should now be given to democratic papers, whether the local officers be republican or not? If it does not, should not the republican publishers of the district "send their protest to Washington, accompanied by charges against the incumbents who do not acknowledge the right?"

Mortgaged His Father's Farm. The Wadena Tribune gives the following account of the rashness of Geo. F. Cook, a former resident of Brainerd:

For some months reports have been circulated to the effect that Geo. F. Cook was not pursuing a course entirely consistent with the rules of honesty and integrity. During the past week these rumors have increased in number until at the present time, if half of them are correct, they stamp him as a villain of the deepest dye. About three years ago Cook moved to Superior, Wis., on business, and for his wife in the furniture business conducted by J. W. Hassan. This partnership was continued until this spring, when Mr. Hassan concluded that the business was not what it ought to be. Several competent persons were called in and the books examined. They were in bad condition and indicated that Cook had been getting a good deal more than his share out of the business. As a result, and in order to avoid trouble, he quietly surrendered all his wife's interest in the concern to Mr. Hassan, without recompense.

Some two months ago Cook went to Superior, Wis., on business, but it soon transpired that he was "righting friends in Canada." Last week he sent for his family and they left for that place Monday night. Since his absence quite a number of transactions have come to the surface which are not entirely regular. Principal among these was the mortgaging of his aged and gray-haired father's farm, without his parent's knowledge or consent, and thus using the money. Quite a lot of bills were contracted and in several instances money obtained under false pretense. Cook was a man who was generally respected and his friends are at a loss to account for his actions during the past six months. He may be able to explain all these seeming irregularities, but from the information now obtainable it looks doubtful.

State Topics. A horse owned by Lawrence & Curtis at Motley was struck in the stomach by a piece of board and killed.

There is trouble at St. Cloud over the fact that small boys make the evening hideous when the band is giving a concert in the public park.

An Indian made a criminal assault on a thirteen-year-old daughter of Henry Dye, at Shakopee, but was frightened away.

There are no licensed saloons in Hubbard county, but there are plenty of places where a drinker can get all the liquor he wants.

Old Magrison, the total sum of the Mille Lacs Indian massacre of 1882, is at the hospital in St. Cloud in a very precarious condition. One Indian, a little bad whisky and a 22-calibre revolver were the entire cause of it.

Great excitement still continues at Red Lake Falls over the excommunication of the French priest, Father Marcell, by Archbishop Ireland. Marcell is said to have sold a mortgage term, representing that it was clear. A warrant for his arrest has been issued, but has not been served yet. His followers are trying to prevent the representatives of Archbishop Ireland from taking possession of the church.

## MINNESOTA BREAD.

The State Legislature takes Strong Action against Alum Baking Powders.

The state legislature of Minnesota has just passed a law prohibiting the manufacture of baking powder containing alum, and making either the manufacture, or the sale of, or the having in possession, baking powder containing alum a criminal offense, punishable by fine or imprisonment, unless such article is plainly marked with the name and address of the manufacturer and the words "This Baking Powder contains Alum." The following is the main provision of the law: "An act in relation to the manufacture of Baking Powders." Section 2.—"Every person making or manufacturing baking powder or any mixture or compound intended for use as a baking powder, which contains alum in any form or shape, shall securely affix or cause to be securely affixed to every box, can or package containing such baking powder or like mixture or compound, a label on the outside and face of which is distinctly printed in legible type not smaller than 'long primer,' the name and residence of the manufacturer, and the following words: 'This Baking Powder contains Alum.' Any person violating the provisions of this section shall be deemed guilty of a misdemeanor, and shall for each offense be punished by a fine not less than twenty-five (\$25) nor more than one hundred (\$100) dollars and costs, or by imprisonment in the county jail not to exceed thirty (30) days.

Section 3.—"The having in possession by any person or firm of any of the articles or substances hereinbefore described, and not labelled as provided in section two (2) of this act shall be considered prima facie evidence that the same is kept by such person or firm in violation of the provisions of this act, and the State Dairy Commissioner, his assistants, experts and chemists, or any one thereof, are hereby authorized to seize upon and take possession of such articles or substances, and upon the order of any court which has jurisdiction under this act, he shall seal the same, giving full notice of the time of such sale and of the fact that such compound or substances contain alum, and the proceeds of such sale shall be placed to the credit of the State Dairy Commissioners fund."

This act was approved April 1st, 1889, and takes effect Aug. 1st, 1889.

Bob Dunn, of the Princeton Union, has just completed a handsome residence at Washburn's money contained therein.—Anoka Union.

## A JAUNT IN PERSIA.

Preparations Necessary for a Mountainous Trip in the Shah's Dominion.

This is the way we were obliged to prepare for the trip in order to reach our destination. It was necessary that we should take with us tents, bedding, crockery and sufficient animals to carry ourselves, the servants and the outfit. This required the employment of much talking and of occasional thrashing when the insolence of the chieftains, or neglect, interfered with the clinching of a bargain. After several days of preparation all seemed ready for the start. Our outfit consisted of about the journey, however, was the fact that we were obliged to journey by night. The great heat makes it impossible to travel in Persia in the middle of the year. Our departure was therefore so timed that we should leave the hot season of the full moon. Once on the road, and winding through narrow lanes at a moderate walk, we were able to observe what an imposing procession we should make with our tents, bedding, crockery and sufficient animals to carry ourselves, the servants and the outfit. The highest waterfall yet discovered has been found near the west coast of New Zealand, and empties into the Poseidon River. It consists of three leaps in almost direct line, but when standing about a quarter of a mile away, it has the appearance of a straight leap with two breaks. The water issues from a narrow rocky dell at the top of a precipice; it then makes one grand leap of 115 feet into a rocky basin on the face of the cliff, issuing forth once more, it makes another fine leap of 751 feet; and then goes tumbling headlong in one wild dash of 338 feet into the pool at the foot of the precipice. The total height of the fall is 1,204 feet.

DR. VON LAUER, ex-surgeon-general of the German Army, who died a short time ago, was years ago appointed court physician by old Emperor William. In this capacity, he was obliged to visit the ruler twice each day and subject him to a rigid examination. The physician gained great control over his master in the course of time, and was, in fact, the only person whom he would obey.

The emperor often spoke of his tyranny in a playful manner, but was ever grateful for his thoughtfulness and care. There is little doubt that the great age which the monarch attained was due in part to the strict rules of diet and exercise which Dr. von Lauer always enforced.

WORK OF THE WITS.  
Can You Laugh at these?  
If you are traveling in a pullman car you want to give a fat man a wide berth.  
Taken as a whole, the Indians, although illiterate, are the best race in the world.

Our experience with some sailors destroy our belief in the survival of the fittest.  
It was the woman who saw the first snake, but since then the men have attended to that sort of thing.

A Rejected lover sent a red flag to the lady, asking her to wear it as a signal, so that other fellows might not suffer as he did.  
Mother—"Johnny, your face is dirty." Johnny—"Well, so is the earth's face, and nobody makes a fuss about it, does they?"

Mamma: "Well, did you tell God how naughty you have been?" Lilly: "Yes, I was, was, was, I thought it had been better not get out of the family."—Life.

"Well, Bartley, I see that Bill Brumwell has a new wife." "Indeed he hasn't." "I'll go you the cigars on it." "All right. She's no new wife. She's a second hand." "Oh, I see; a widow." "Just so."

A New Hampshire crank who has imported a Cashmere goat, intending to raise his own cotton to make camel-hair shawls, writes to know if there is any difference between Sontadun and mutton and nutton down South.

Our is a practical age. The old motto, "Trust in God and keep your powder dry," has been translated by an Iowa farmer thus: "Boys, don't touch these melons, they are green, and I don't want you!"—Boston Congregationalist.

"Why, I tell you sir, it's a splendid remedy children cry it." "That may be, it proves nothing." "I've boy cried for a woolly wool with red legs, and I am quite certain that a woolly wool with red legs wouldn't cure him of the colic."

He had been following a strange lady in the street, vainly seeking an excuse to accost her. At last he says: "Madam, of course it is not raining; but, if it did rain, night, I, with the greatest pleasure, offer you my umbrella, if I had one!"

"Father—Robert, is it not about time that little boy were abed? Robert (aged six, earnestly) glancing at the lady) Really, father, I have been excused from venturing an opinion. It is a subject in which I have little interest; I have no little boys, you know."

Mrs. Barkis—"Why, really, are you back so soon? I thought you were going to put in the first two years of your wedded life in Europe? Mrs. Young couple—"We did intend to, but—your know the constitution does not allow a foreign-born person to become President, you see."—Terre Haute Express.

A Washington paper, speaking of the recent death of a prominent citizen, says: "The widow and her daughter are living here very comfortably." That's good, we don't know much about Washington society, but we infer from that a widow and daughter in full mourning and deep affliction are apt to make Rome ho-ho!

An attorney expressing a conflicting opinion in a matter under discussion before Judge Walton was met with this: "You should remember the remark of Judge Goodenow to Judge Goddard: 'You may be right and I may be wrong; but my opinion is worth more than yours.'"

Office-seeker—I have called to see, Mr. Wannamaker, if you can do something for me. I am a life-long Philadelphian, having been born and raised, so to speak, on the classic banks of the Schuylkill. Mr. Wannamaker—"You are not a Philadelphian. No true citizen of dear old Philadelphia ever comes near Skookil in two distinct syllables."

"Would that I had wings and could fly!" fervently exclaimed Nonsensical Fitzgibbon, who was somewhat poetically inclined. "Why do you wish that, Nonsensical?" softly murmured Marigold Geoghegan, who just doted on poetic sentiments. "Because then I could make loads of money as a museum freak!"

Not a man of his word—"W-w-will you b-b-be m-mine, Miss Laura? Can't you trust me through-life my angel?" asked the stuttering young man. "I am afraid not, Mr. Jenkins," replied the object of his devotion. "I am a life-long Philadelphian, having been born and raised, so to speak, on the classic banks of the Schuylkill. Mr. Wannamaker—"You are not a Philadelphian. No true citizen of dear old Philadelphia ever comes near Skookil in two distinct syllables."

A short time ago a fellow named Crandall escaped from the Allegany County Jail, and wrote back the following note to his former custodians: "I suppose it is a mystery to some how I got away, and consequently I will give you a brief history of my departure. The modus operandi was thus: I got out of my cell by ingenuity, ran up stairs, and quietly crawled out from the back window in secrecy, and down the lightning-rod with rapidity, walked out of the Allegany town with dignity, and am now enjoying the sunshine of pleasure and liberty."

The kindness of farmer Hodges, of Frankfort, Ky., was gratefully appreciated and promptly rewarded by George R. Hall. The latter, suffering from sudden illness, called at a farm-house for shelter, but was refused admittance. He then tottered to the house of farmer Hodges, and, although a stranger, was warmly welcomed. He remained there for some time, and in a few days died. He was so pleased with the attention he received from the farmer and his wife, that he left them his estate. The property comprised a house, a barn, a well, and three cattle, worth \$5,000, and three cattle worth \$5,000.
